

## Brief CV

Name	Ilya Tsukernikov	Gender	male	
Title (Pro./Dr.)	Dr.Sc., Pro.	Country	Russian Federation	
University/Department	Research Institute of Building Physics/Laboratory of Building Protection against Vibration and Structure-Borne Sound			
Research Area	Rail transport noise and vibration measurement, calculation and reduction; sound insulation in building and of building elements measurement and rating.			
<p>I am the Doctor of Engineering Science (Acoustics), Chief Scientific Officer of the Research Institute of Building Physics (Moscow, Russia), Corresponding Member of the Metrological Academy, Adviser of the Russian Academy of Architecture and Construction Sciences, member of Russian Acoustical Society, Acoustical Society of America.</p> <p>I am a specialist in the field of vibroacoustics, building acoustics, machinery and rail transport noise and vibration measurement, calculation and reduction; sound insulation in building and of building elements measurement and rating. I have published over 250 scientific papers, the co-author of a monograph, tutorial, encyclopedia “Ecometry” and nine copyright certificates for inventions, the developer of more than 30 regulatory and technical documents. I presented the main research results on the international conferences in Australia, Austria, Brazil, Canada, China, Denmark, Finland, France, Germany, Italy, Japan, Portugal, Spain, the USA, Sweden and other countries.</p>
